2.3. Commendation for Outstanding Publications Awards for the Promotion of Studies on Developing Countries

In order to promote studies on developing countries and to encourage researchers in Japan who are engaged in development studies, the IDE grants awards every year for outstanding publications analyzing economics and other issues related to developing countries. In 2016, a total of 31 books and papers published during the previous year were recommended for consideration. The selection committee, consisting of the members listed below, selected the publication shown here. The award was presented to the author at the Institute on July 1, 2016.
