

IDE-JETRO Symposium

High-Speed Railway and

The Landscape of Eastern Economic Corridor 2030

DATE: 13:00-17:00 May 26 Friday, 2017
VENUE: Ball Room I, Intercontinental Hotel Bangkok
Language: English-Thai simultaneous interpretation

Thailand is launching Eastern Economic Corridor (EEC). In particular, the Bangkok-Rayong high-speed railway (HSR) links three international airports of Don Mueang, Suvarnabhumi, and U-Tapao, which is expected to change the landscape of the EEC area to be service oriented.

This symposium will discuss the impacts of the high-speed railway projects in Thailand and the landscape of Thailand 2030 focusing on the EEC. IDE-JETRO will present the simulation results of HSRs and the EEC by using the IDE Geographical Simulation Model (IDE-GSM) which makes it possible to predict the impacts of HSRs on the EEC and the rest of Thailand.

13:00-13:30	Registration
