

Global Value Chains: Quo Vadis?

PANEL DISCUSSION

Moderator: Michitaka Nakatomi

Special advisor to JETRO,
Consulting fellow of RIETI

THEME 1

The future prospect for GVCs analysis: its policy applicability, limitations, and issues to be tackled.

- (1) Can trade in value-added an alternative to traditional ways of measuring trade? Or how can they supplement them?
- (2) Can you specify new or additional ways of utilizing trade in value-added?
- (3) How can the issue of data availability be practically resolved in the future?

THEME 2

GVCs analysis and trade policies: what are the main policy implications? Where should they be headed to?

- (1) What are the main implications of GVCs analysis to trade policies?
- (2) Can you specify necessary changes to trade policies and practices based on GVCs analysis?
- (3) What does GVCs analysis tell on the roles of Mega FTAs / the WTO and the issue of global governance of trade?
- (4) Can you specify measures and conditions for developing countries to enter GVCs?
