

# List of Figures

Figure 1:	Prototype of agri-food supply chain - production stages and potential sources of non-compliance	2	Figure 4.1:	Production of seafood products in China, 1978–2010	49
Figure 1.1:	Agricultural employment (per cent of total employment) in East Asia	8	Figure 4.2:	Main export markets for Chinese seafood products in 2010 (volume base)	50
Figure 1.2:	Relevance of agriculture for the economy (2000 and 2010)	9	Figure 4.3:	Timeline of eel culture	54
Figure 1.3:	Trends in agricultural and food exports from East Asia, 2000-2010	11	Figure 4.4:	Flow of inspections for processed eels in China	57
Figure 1.4:	Agricultural exports by region	11	Figure 4.5:	Distribution routes for live and processed eels in China	60
Figure 1.5:	Food exports by region	11	Figure 5.1:	Number of rejections by major agriculture commodity group for Vietnamese products exported to four markets, 2006–2010	63
Figure 1.6:	Comparison of agricultural and food product exports for LAC and EAP	11	Figure 5.2:	Seafood exports from different regions of Viet Nam in 2011	66
Figure 1.7:	Value of exports to various regions from East Asian countries, 2000-2010	13	Figure 5.3:	Total capacity of Vietnamese offshore fishing vessels (thousand CV)	67
Figure 1.8:	Share of the Japanese market in exports from East Asia, 2000-2010	13	Figure 5.4:	Export value of Vietnamese fishery products (US\$ million)	67
Figure 1.9:	Number of food and feed import rejections in four markets	13	Figure 5.5:	Export value of shrimp and pangasius (1997–2011)	68
Figure 1.10:	Prototype of agri-food supply chain - production stages and potential sources of non-compliance causing rejections	22	Figure 5.6:	Destinations for Vietnamese pangasius exports	70
Figure 2.1:	Japanese import rejections of fish and fishery products per US\$ million imports, 2006–2010	29	Figure 5.7:	Pangasius value chain in Viet Nam	72
Figure 2.2:	Relationship between the shares in Japanese imports and rejections in fish and fishery products, 2006–2010	29	Figure 5.8:	Pangasius products	74
Figure 2.3:	Japanese import rejections of fruits and vegetables per US\$ million imports, 2006–2010	30	Figure 5.9:	Pangasius farm sizes in An Giang province	75
Figure 2.4:	Relationship between import shares and rejections in fruit and vegetable products	31	Figure 5.10:	Shrimp production value chain (Black Tiger) in Viet Nam	76
Figure 2.5:	Reasons for Japanese rejections of Vietnamese food products, 2006–2010	35	Figure 5.11:	Quality inspections conducted at each level along the value chain 79	
Figure 2.6:	Reasons for rejections of Thai food products in Japan, 2006–2010	35			
Figure 3.1:	Chinese agro-food trade trends, 1980–2010	38			
Figure 3.2:	The composition of Chinese agro-food exports (in value terms), 1992–2010	38			
Figure 3.3:	Share in Japanese rejections of Fruit and Vegetable products among selected East Asian countries, 2006–2010	39			
Figure 3.4:	Vegetable production trends in China, 1978–2010	40			
Figure 3.5:	Vegetable distribution system for domestic/global markets in China	41			
Figure 3.6:	Exports of various vegetable product groups from China (in US\$ value)	42			
Figure 3.7:	Distribution of importers of Chinese fresh vegetables in 2011 (in value)	43			
Figure 3.8:	Distribution of importers of Chinese frozen vegetables in 2011 (in value)	44			
Figure 3.9:	Procurement systems for vegetables for export processors in Shandong before and after 2002	45			
Figure 3.10:	Inspection system for export vegetables	46
